

DESIGN PROFILE: SCAVOLINI

THREE EXCITING DESIGN CONCEPTS FROM ITALY'S BEST-SELLING KITCHEN BRAND

1. FOODSHELF BY ORA-ÏTO

Ora-ïto reinterprets the design horizons of the contemporary kitchen, overturning the rule whereby it is the kitchen that "contaminates" the living room: In this project, quite the opposite is true, the living area enters the kitchen, influencing it with its compositions. Foodshelf surpasses the "standard" and gives rise to a "new horizontal linearity."

2. DIESEL SOCIAL KITCHEN

Diesel and Scavolini give rise to an extremely modern modular kitchen, featuring a distinctly vintage spirit, which is an intrinsic part of Diesel's DNA. The two iconic brands shared a desire for a project where design meets with informality, with not only practical functions, but also social. Diesel Social Kitchen: a laboratory with a place to entertain friends.

3. LIBERAMENTE BY SCAVOLINI

Geometric lines combine with formal rigor for a layout with maximum flexibility. The result? A modern kitchen that becomes the centerpiece of the home. The main feature is its customizable nature, which guarantees functional solutions inspired by research into the greatest freedom of composition. LiberaMente is dedicated to those who want the kitchen to be the heartbeat of the home.
