A-LIST APPROVED

PALECEK v

The Strings Attached Lounge Chair delivers polish, sophistication, and comfort with a solid rattan frame in natural finish, plush deep customizable cushions surrounded by a visually witty element: spindles of bundled natural abaca rope. palecek.com

"I've always been a fan of the Strings Attached Lounge Chair. My inner hippie gets really happy with this arm chair. It's the perfect item to pair with a fun, fresh fabric and can work as a solo chair in a bedroom or with a buddy in a great open, airy living space."

HAMMERTON ^

A fusion of bold geometry and organic warmth, the Gem Chandelier features LED-lit artisan glass that evokes the look of precious stones without the visual distraction of traditional filament lamping. studio.hammerton.com

"Gem Ring Chandelier is a clean, edgy light fixture that would work really well in a funky powder room. It has a rock star element that would be amazing paired with a fantastic, slightly over the top wallpaper."

YORK v

The Bird and Blossom Chinoiserie is inspired by an original nineteenth century Chinese hand painted silk. The Asian motifs are set against a backdrop of burnished metallic and modern color. Artfully combining heritage design with innovation, this classic pattern exemplifies the blending of quiet sophistication with glamorous urban style. yorkwallcoverings.com

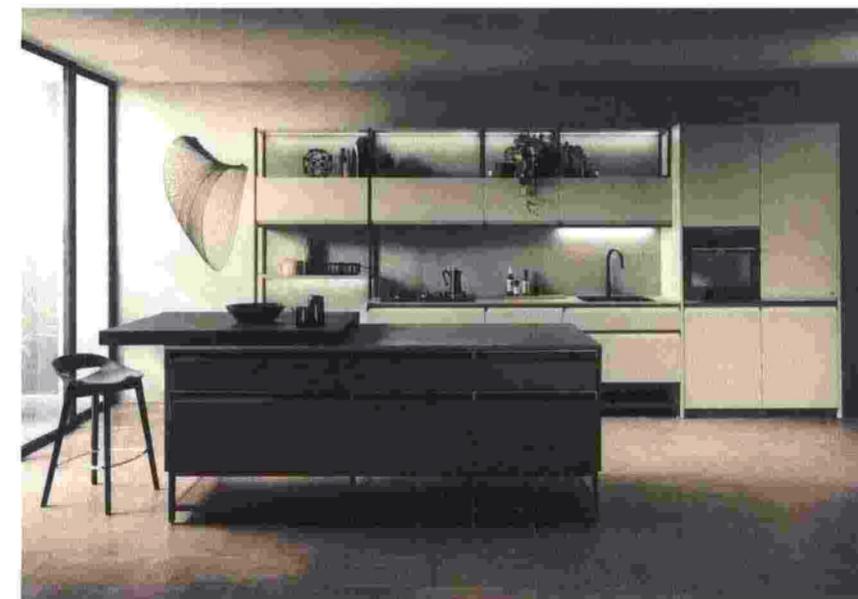

"York's Bird and Blossom Chinoiserie wallpapers are great for the more modern client. Clean, open, with great colorways, it can work in so many different style rooms providing just a hint of opulence."

SCAVOLINI >

The Formalia kitchen by Scavolini—in partnership with designer Vitore Nioiu—gives a home character and elegance. Formalia truly stands out and keeps up with current trends. A distinguishing feature is the shaped door, featuring a handle at the top that is available in black and titanium. scavoliniusa.com

"Formalia Kitchen bridges the gap between furniture design and kitchen cabinetry. The most striking aspect is the raised cabinets. There is a lightness by having everything raised off of the floor that you don't generally get with a more bulky, standard kitchen cabinet layout. The sleekness of the beveled door allows for a nice reinterpretation of integrated cabinet pulls."
